

THE UNITED NATIONS HOAX

by Dr. Billy James Hargis

In my 17-year military career as an FBI counterspy within the Communist conspiracy, I many times prayed that somewhere among the millions of decent Americans there would emerge a great spokesman for the American cause, someone who would see through the transparency of the great Soviet lie and expose it for the total atheistic evil it was and is.

The first time I heard Billy James Hargis speak, I knew instinctively that my wish was well on its way to being fulfilled.

A keen observer and analyst of international affairs, Dr. Hargis had watched with growing concern the steady encroachment of the Communist-directed plan within the United States, waging its war of relentless attrition in our schools, our churches and our government.

Billy James Hargis knew that the slithering path of the subversives was not a spontaneous grass-roots movement. It did not spring from the well of want. It did not emerge from the American culture, but was being surreptitiously superimposed upon it. From whence came the power that turned the wheels of the Soviet Chariot of Juggernaut?

Dr. Hargis traced that diabolical power primarily to The United Nations—an instrument of international deception, founded on fraud and functioning on a charter actually written by Soviet agents!

In this fact-packed volume, the world's leading anti-communist evangelist shows you beyond refutation that you cannot be on God's side if you are contributing in any way to the growth of the Soviet malignancy. Billy James Hargis will prove to you with consummate logic that the United Nations is a Soviet-controlled predatory monster—housed, clothed and fed by those it plans to consume... the American people!

Founder-director of "The Christian Crusade," world's largest anti-communist movement, Dr. Billy James Hargis has accepted as his mission the duty to save our nation from the plan-handlers, the crackpots and the Godless communists within our ranks. This incisive examination of The United Nations in general and UNESCO in particular should convince any American who hears it that the enemies of God are here on our own door-step, and that the time to do something about it is **now**. In an atmosphere of apathy, time is the ally of evil.

RED PIPELINE TO MOSCOW

by Major George Racey Jordan

Describing himself as "a re-tread from World War I," George Racey Jordan abandoned civilian success as sales and advertising executive to re-enter the military in World War II. As Lend-Lease expeditor at Great Falls, Montana, in charge of air freight to Moscow, Major Jordan grew progressively suspicious of the sealed and so-called "diplomatic" cargoes. Over violent protests, he examined them closely. What he discovered became the basis for his almost incredible revelations to Fulton Lewis, Jr., and subsequently to The House Committee on Un-American Activities.

Notwithstanding the Security blockade, and despite the specific limitations declared by the Congress in approving Lend-Lease legislation, everything from our atomic plans and materials to top secret State Department memoranda flowed in a steady, subversive stream down "**The Red Pipeline To Moscow.**"

Congress was horrified to learn that our government's gifts to Communism even included master plates from the U.S. Treasury, so that Russia could print its own occupation currency, which **we had to redeem!** We handed the Red Butchers "the greatest mail-order catalogue in history" . . . with all items paid for by unsuspecting American taxpayers.

Inevitably, Major Jordan became the target of the heavily-financed character assassins, smear artists and Communist Fronts. That his fully documented testimony was unimpeachable is perhaps most succinctly described by John O'Donnell in The New York Daily News, who said "**His statements prove true.**"

And it was Senator Pat McCarran who commented "The Jordan charges . . . explain why Russia was able to get our atomic secrets and produce a bomb far ahead of schedule."

Or, as The Omaha World-Herald put it in a lead-editorial: "Developments thus far indicate that Major Jordan knows what he's talking about. And they suggest that the events he witnessed in Great Falls may have been part of a much larger conspiracy to 'give the Soviets everything they sought' . . . including atomic materials which were supposed to be super-secret, and engineered plans for the American atomic plants."

This exposé of the unconscionable deceit employed by those high in administrative offices will infuriate you. **But it will show you where our money, our honor and a large measure of our freedom have gone.**

George Racey Jordan, USAF (Ret.), wastes no time on broad generalities in this revealing record. He tells you **who did what.** He links the scoundrels to the International Communist Conspiracy. He tells you precisely where to obtain the documentation in the government's own records. Then, he makes the shocking revelation that **today**, under the "New Frontier," many of those branded as agents of the Soviet subversion squad are not only **back in the government**, but actually in **positions of greater influence than they were when they were expelled!**

The facts are all here. But information, without action, is sterile. The value of the facts lies in **what you do about the situation.**

And those who have heard it!

ALFRED SIEGLER, Principal of Vallejo Senior High School — "... We know that anyone who knows of you or hears you speak will feel fortunate that you have become part of our American heritage ..."

DAILY REPUBLIC, Fairfield, California— Editorial: "Never have I seen or talked with anyone more anti-Communist or a person who loved and appreciated America more than this man."

JOHN TORCHIO, President of Lions Club of Oakland— "... It was a privilege to hear you and the experiences you related to us will surely activate us toward preserving the freedoms for which you sacrificed so much ..."

HON. LOUIS FRANCIS, Assemblyman — "You have my highest praise and deepest respect and admiration for your courage, dedication and determination in this fight against Communism and subversion ..."

A. LEE ODER, California State Commander of American Legion— "This man's love of freedom is the true spirit of Americanism."

H. C. DAY, Pastor— "We certainly hope you will continue to use your influence to arouse the people of America to the reality of Communism ..."

FRANK ISZAK WAS A MEMBER OF THAT HIJACKING TEAM!

Frank Iszak, born in Hungary in 1931, was educated in parochial elementary and high school, and attended the University of Chemical Engineering of Hungary between 1951 and 1956. During that period he also worked for various Communist newspapers, where he saw the Communist apparatus working at full speed.

The conditions in Hungary became unbearable, but the Iron Curtain was completely sealed off, making any escape attempt a suicide. Frank Iszak, his wife and five friends worked out and succeeded in a never before attempted plan - to hijack a commercial airliner in flight.

After this hair-raising escape, he received political asylum in Western Germany, where he worked for the United States Government for over a year. He immigrated to the United States in 1957 and worked for six years as a research chemist in Berkeley, California. Then for over two years he was employed by a San Francisco Bay Area newspaper. In 1963 he became an American citizen, and a year later was awarded the citation, "The Most Outstanding American of The Year," by the American Legion Auxilliary of California. At present he is heading a Public Relation firm.

Mr. Iszak is an author, a lecturer and a debator. He travels extensively over the United States, telling "With No Mercy" - the story of Hungary and the degradation of life behind the barbed wire. As a man who actually lived and experienced Communism, and then tasted freedom of the free world; his message can be summed up in one sentence:

"Love America and protect her, because she is the last hope of mankind."
