

"Morality sees farther than intellect"
- Mr. Robert Welch
1899 - 1985

The Welch Foundation is established upon the successful Americanist principles set forth by the late Robert Welch who was the clarion voice of America's priceless heritage - our Constitutional Republic.

Mr. Welch had extensive knowledge and understanding of the bipolar forces at work in the molding of America's - and ultimately the world's - destiny: the liberating, enlightening and ennobling virtues of a Godly Constitutional Republic versus the enslaving, regressive and debasing secretive schemes of a Godless, Globalist cabal.

Mr. Welch sought to create an informed, educated and empowered public by dedicating his intellect and resources in the formation of a vast activist, grassroots organization to expose the rotted roots of a long-planned One World Tyranny.

His was a well-reasoned and determined stance in upholding and promoting our nation as a secure Republic in opposition to the ominous rise of Democracy/Socialism. Although Robert Welch is gone, his legacy will long endure. Such was the genius of this great man.

THE WELCH FOUNDATION

In this crucial hour, as the fragile flame of individual and national liberty sputters and begins to fade, The Welch Foundation boldly proclaims our:

MISSION:

To protect and preserve our Constitution as written by our founding fathers and as defined by The Federalist Papers.

MESSAGE:

America was founded as a Constitutional Republic. Rule by Law, not Rule by Men!

Unconstitutional growth of the Federal Government in all areas, must first be stopped, and then reversed.

Piecemeal surrender of our sovereignty through treaties and organizations like the U.N., guarantees our eventual enslavement!

METHOD:

To focus on the production, distribution and broadcast of educational materials and programs which support constitutionally sound free market solutions to the multitude of problems facing our nation today.
