LITERATURE FOR THE OCCULT STUDENT

The First Three Books

No library is complete without the following basic trinity, and every student of occultism, mysticism, or philosophy should include among his books:

*A complete Anatomy (Morris' suggested).

A Dictionary (Webster's International Unabridged).

A Bible (preferably not a King James' version).

A good Encyclopedia places a wide range of information within the reach of the hurried reader. The ninth edition of the Encyclopedia Britanica is very serviceable and inexpensive. The eleventh edition slights philosophy and occultism. If the student is at all interested in astrology, an up-to-date Atlas should also be at hand.

Purposeful Living...
LECTURES ON ANCIENT PHILOSOPHY
BY MANLY PALMER HALL

We have paid a frightful price for our boasted
success; for our strength has taught us to hate,
our power to kill, and our thought to reason
away our souls. But available to our understanding
is that sufficient code which guided the wise, Neo-
Platonism... In twenty magnificent chapters—Im-
mortal Truths traced through the colossal learning
of the great masters of the art of living. A sum-
ming-up of man's age-long quest for the full measure
of happiness and security.

HOW TO UNDERSTAND YOUR BIBLE
BY MANLY PALMER HALL

Global thinking... The Holy Bible is the
sacred book of Christendom. Other peoples also
have their sacred books, writings which have guided
moral conduct and spiritual aspiration for centuries.
All the Bibles of the world united together reveal
one spiritual tradition. In spite of human prejudice
to the contrary, there is but one Religion and one
Truth. Our Bible is a book of comparative re-
ligion and worthless to the individual who per-
ceives Christianity to be a unique revelation. Wider
acquaintance with other inspired writings will not
destroy your faith in the Bible, but it may injure
your faith in some of its translators. You will see
the uselessness of picking Bible phrases to pieces
and trying to think in terms of "jot and tittle."
You will be free to consider the larger issues.

FIRST PRINCIPLES OF PHILOSOPHY
BY MANLY PALMER HALL

The average man or woman has neither the time nor the training necessary to gather from the experience of the ages the substance to evolve an enlightened personal philosophy. Yet such a personal philosophy is absolutely essential to mental and spiritual well-being. From the whole philosophical literature this book selects those parts which are of primary significance, a few basic principles. These principles, once grasped, equip the mind to cope with any issue with at least a measure of true intelligence.
