William Cooper might announce these sources on-air

Sometime for the benefit of his listeners. 😊

[Sigh...sigh:]

He has however never bothered to investigate the "pyramid history & materials" at the A.R.E. Library at Virginia Beach to whence the collection by Manly Palmer Hall has now been carried. Cooper's education about spiritual matters is still quite incomplete 😞

THE GREAT PYRAMID

An indestructable time capsule of antiquity?
A mysterious challenge to modern science?
A prophetic warning of the future?

The Great Pyramid of Cheops is all this, and more. Historians who maintain that this huge Egyptian mausoleum is nothing more than a tomb for a legendary pharaoh are hereby debunked.

With the vigor, imagination, and scientific insight of such scholars of prehistory as Erich Von Daniken, Immanuel Velikovsky, and Robert Charroux, Tom Valentine sweeps away the sands of calcified ignorance and presents startling evidence for what may be an entirely new theory for the unlocking of the secrets of the Great Pyramid.

A lifetime of research through the dusty pages of history, archaeology, astronomy, geometry, religion, and the occult form the base for Mr. Valentine's revealing thesis. Never before has one man probed so deeply into the myth and reality of the Great Pyramid.

Here is Man's Monument to Man, the gigantic wonder of the world, built by thousands of primitive workmen who hauled nearly 2.3 million blocks of stone to Giza, where ancient architects created a 40-story, 6.5-million ton edifice that has lasted through the ravages of 5,000 years of time... and it tells a story that is more fascinating than ancient astronauts, Dead Sea scrolls, or unidentified flying objects!

This abstract is a hunting "license" for C.A.J.I. members to acquire the 1975 book by Tom Valentine at used book store, flea market, or... a garage sale. I bought this one for \$0.25 at library castaway table.

An astounding exploration of mankind's past and future... a book as provocative and exciting as Chariots of the Gods, and as prophetically startling as The Late Great Planet Earth.

To William Cooper, 3
Seeker who is not yet to the
end of his journey: Ha, for an
understanding of the Great
Pyramid he might want to check
out the matter with souls now
in the flesh who were with
Hermes and there when the
edifice was brand new.
