ON VERY SHORT NOTICE.

THE HAPPENING NEWSLETTER  
80-705 HWY 86 OASIS CA  
92274 /Phone# (619) 397-3616

Dear "Happening" Family,

We are now one more month into the 1990s. I hope you have been listening closely enough to realize that we as patriotic citizens have to stand up and take notice of what has been going on around us. The UFO cover up was just the beginning of the flood of information that has been presented to us by men like Bill Cooper, Virgil Armstrong, Richard Murray, Bo Gritz, Brad Kleitz, "Wally", Paul Fisher, etc...

It has been suggested that we cannot rely on the major news sources to get accurate, or should I say "truthful" information. The men mentioned above gathered together on January 7, 1990 to bring forth and tie together the information they have accumulated so that they could give us a clearer picture of what is really taking place in this country, in the world and even the Universe. Some of these men say that the news sources cannot be trusted because they are under the power of the Council of Foreign Relations (CFR) and the Trilateral Commission (TC), as suggested by the charts that are published in this month's newsletter. Please take a close look at them. I am sure they will prove to be very interesting. (Many thanks to Brad Kleitz for the contribution of these charts) All of this and much more was presented by the expert panel. The main volume of this issue is the transcription of the panel.

I wish to introduce another subject concerning the set-up of our "Newsletter". Some of the sections I am contemplating are a "Letters to the Editor" section, an "Upcoming Events" section and perhaps a "Recent Sightings" section. I would welcome and greatly appreciate your contributions to any of these areas. There are some things you should know, however, that would be helpful to both of us. I cannot reprint anything that is copyrighted without the permission of the author. This does not mean you should not contribute something written by someone else. Their information could be a stimulus for me to write my own article. If you send in an article, letter or anecdote written by you, I need a disclaimer from you allowing me to publish your submission. The disclaimer need only be a note granting me permission to publish your material and needs to be signed and dated. As for upcoming events, you can search the calendar sections of your local newspapers for possibilities or perhaps you belong to an organization and would like to list your meeting times. If you do send in information about an event, please be certain this information is accurate and complete. One more thing - we need PHOTOGRAPHS and welcome submissions.

I would like to extend an apology to those who had to contact us several times before receiving their "Newsletter". Some delays were due to error on our part, but most were caused by a certain post office (not ours) that neglected to deliver

the newsletters in its area. An inquiry has been made as to why this happened. We trust this will not happen again.

I would like to extend another apology to someone in particular. In the last issue there appeared a story that belongs to Christa Tilton. You may have noticed that I had misspelled her name - it's Christa, not Krista. I also missed a type regarding her age - she is 37 not 27. Unfortunately, another error was made in the name of her book, "The Triad Experiment", not Quest. She has a publication called "Crux Publication". If you would like more in depth information on Christa's experiences, you can contact her by writing to:

Crux Publication  
P.O. Box 471  
Paris, Texas 75461

I will now leave you to read on and enjoy this month's "Newsletter". We regret we were not able to include the interview with Billy Goodman in this issue due to the amount of space taken by the transcription of the VIP panel. We felt that this information was very important to present to you.

CELESTIAL DREAMS

Shall we swim celestial pools  
and quench our spiritual thirst?...  
...in waters flowing crystal pure,  
beyond this realm called Earth.

And we shall board a mighty craft  
that sail celestial seas;  
a magic raft that floats 'tween worlds,  
beyond wars and disease.

We'll smoothly sail through stars above,  
with faith course will plot;  
return to stellar isles and seas  
of dreams dreamt, but forgot.

Revisit mysteries of life  
to share with all mankind;  
with swords of truth we'll set men free  
from bondage of the mind

The wise will seek to understand  
the truths taught in the past;  
illusion fills our mundane minds,  
BUT-what crumbles does not last.

So let us yearn for better things,  
prepare our souls, we MUST...  
...for our true home, eternal,  
beyond all graveyards, time, and dust.

A day will come when we'll recall  
our sojourn through the skies;  
but first we must evolve beyond  
BLOODLUST-HATE-GREED-AND LIES.

# O<sub>2</sub>XYGEN THERAPIES

## A NEW WAY OF APPROACHING DISEASE

ACNE AIDS ALLERGIES ARTHRITIS ASTHMA CANCER  
CANDIDA COLDS DIABETES FLU HEART HEPATITIS  
HERPES LUKEMIA MS ULCERS

### AIDS? CANCER? HEART DISEASE? ARTHRITIS?

O<sub>2</sub>XYGEN THERAPIES HAVE BEEN USED TO TREAT THESE DISEASES.

THEY MAY NO LONGER BE AUTOMATIC DEATH SENTENCES!

**NATURE'S OXYGEN**, the one thing we can't live without. Not for long anyway. The less of it we have in our body cells, the worse our health becomes. We can die slowly or quickly from lack of it.

**SEDENTARY LIFESTYLES**, poor food, lack of exercise, and shallow breathing of polluted air are contributing factors that have created a chronic "low oxygen" condition in our cells.

**OUR METABOLISM** is a process of burning food for energy. If attempted in a low oxygen environment, it's like trying to burn wet wood, where something is always left over. Our cells accumulate unburnt, or unoxidized, waste products that "plug up the works", and create fertile, swamp like, breeding grounds for harmful viruses and microbes.

**HERE'S THE KEY.** These viruses and microbes (like in flu, colds, AIDS, arterial plaque & cancer cells), live best in low oxygen environments. They are anaerobic. That means, raise the oxygen level around them, and they die! Supply the cell environment with enough of nature's oxygen and it finally "burns up" the waste products! Simple. Too simple? Apparently, since there have been over 4000 articles in the available medical literature, in the past 40 years, referring to the action of oxygen products on pathogens. And, unlike some current disease treatments, when administered at the proper levels, and in the proper way, there have been very few side effects or toxicity reported, other than temporary cleansing reactions. Many alternative health treatments owe their effectiveness to oxygenation. Nature has provided us with a simple energy transport, cleansing, and repair system.

## O<sub>2</sub>XYGEN THERAPIES

A NEW WAY OF APPROACHING DISEASE reveals:

- Current popular methods of increasing cellular oxygenation.
- Formulas, patents, and ongoing lab scientific & medical studies.
- Anecdotal & Medical case histories of former AIDS and other degenerative disease victims, who were treated with oxygenation methods by health professionals, and are now back at work, and viral free.
- Contacts: Names, addresses, methods, and the current status of groups, products, and companies all over the world, who are currently involved with many different types of oxygenation therapies.

O<sub>2</sub>XYGEN THERAPIES, the result of 3 years of research, is available from:

Cost of book is \$12.00 + \$1.50 shipping and handling.  
Send to: Oasis Station General Store, 80-705A Hwy 86,  
Thermal CA 92274.

MYSTERY FIREBALL PUTS ON  
SKY SHOW OVER WIDE AREA  
(Los Angeles Times  
12/29/89)

A large, greenish fireball flashed across the sky at high altitude Thursday evening, putting on a celestial display visible from the Grand Canyon to San Diego, authorities said.

Pilots flying between 13,000 feet and 35,000 feet reported seeing the fireball over Arizona and Nevada, Federal Aviation Administration officials said. Coast Guard officials in Long Beach said they had received reports of sightings from San Diego to Santa Barbara.

A spokesperson at Griffith Observatory said they did not have sufficient information to determine what caused the fireball.

## AT THE HAPPENING

And boy, what a "Happening"! Billy Goodman hosted a program in Las Vegas at the "Showboat" on January 7 1990, at which Bill Cooper was the featured speaker. There were two programs of Bill Cooper's speech. The first was from 3:00p.m. until 6:00p.m. The second one was from 7:00p.m. until 9:00p.m., immediately after which a VIP panel was presented until 11:00p.m. A total of approximately 1,200 people who attended the "Happening". Many of the regular listeners of the "Billy Goodman Happening" were able to interface with each other, and in some cases get to know each other personally. The foyer was set up with tables that offered reading and listening material consisting of Virgil Armstrong's books and tapes, Bo Gritz's books and video tapes, Roger the Dodger with tapes of previous "Happening" programs, books on dianetics, the first issue of the "Happening Newsletter", and Dr. Who, with a High Frequency Generator, was there to demonstrate and answer questions.

Bill Cooper's talk was thorough and quite revealing. He showed via slide projector many government documents proving that our Government has allegiance with a race of space aliens referred to as the "Large Nose Grays". Cooper also showed photographs of bases and mining equipment on the Moon. These photographs were allegedly taken in the later part of the 1950s, before we had ever launched our first space capsule.

Cooper suggest, based on information taken from government documents, that our Government signed a treaty with the "Large Nose Grays" in 1954. President Eisenhower met with these aliens at what is now known as Edwards Air Force Base to sign this treaty, which basically states we would not interfere with their affairs and they would not interfere with ours. In exchange of their technology, they could abduct humans on a limited basis for medical examinations provided the humans were not harmed and that they would be returned to their place of origin without recall. Our government was to be furnished with a list of all of those who had been abducted. Cooper stated that the aliens broke this treaty a long time ago. In 1969, a confrontation took place between our government and the aliens. Scientist working with the aliens were taken as hostages at Dulce underground laboratories. Delta Forces were sent in which resulted in the death of sixty-six of our men. Our government withdrew from any interaction with them for a short period of time, but has since resumed working with them.

One of the things that I found most interesting was the photograph of the alien that appeared in "Aviation Week" and "Space Technology". It is alleged that this photograph (see page 10) was that of a sculpture of an alien. Cooper was able to discount this allegation through enlargement of the photograph. To prove that this was a photograph of a living being, Cooper pointed out small hairs along the neck and shoulder. The creases which you can see in the neck look quite natural. Blood veins in the arms are apparent and moisture which can be seen in the eyes and nose are definitely not characteristic of a "sculpture".

Billy, I salute you. You really outdid yourself this time. I have been to one of your previous seminars and it's quite obvious you went all out for this "Happening". Thank you ever so much!

LISA E. VAUGHN

## EXPERT PANEL

### BILLY GOODMAN INTRODUCTION:

Today we are on the road... and in the next couple of hours, you are going to hear and see some things that I know you have never heard or seen before. I welcome you to fabulous Las Vegas, Nevada at the Showboat and on behalf of Lee Samuels Productions, KVEG 840 AM, welcome! We care...wake up, America! That's what this is about. Don't leave your televisions. This panel was taped for television. Tapes are not available as of yet. When they are, it will be announced.

Ladies and gentlemen, do you believe there are alien bases on the moon? Our first guest on this VIP panel today is Virgil Armstrong. Virgil...tell us. Are there alien bases on the moon?

### VIRGIL ARMSTRONG:

There certainly are, and it has been proven time and time again. Our astronauts have come back and obliquely referred to that. Some have spoken outstandingly about that, have broken security and of course have been admonished. Buzz Aldrin happened to have been one of them. He was given an ultimatum as to whether or not he wanted to keep his rank as an admiral or of course possibly an...well, of course, he was an alcoholic to begin with and it was my understanding he was told to get into AA. The government has many ways of coercing people to do what they want. Believe me, they are on the moon. I have a tape that is called "What NASA Didn't Tell You About The Moon", ninety minutes. I suggest you listen to it. Thank you.

### BILLY GOODMAN:

Bases on the moon. We will be getting more into that. I know what you are thinking...it can't be. Why did we go to the moon then? We will find out more about that.

Listen to this, ladies and gentlemen. In the very near future you may never have money in your pockets. I know what you're saying...no, it can't be. My next guest on this VIP panel is Brad Kleitz. Brad Kleitz, you mean to tell me, America could be facing a cashless society?

### BRAD KLEITZ:

Yes; Billy. Over the last ten years I have picked up things here and there. The pieces of the puzzle begin to mount in my mind... and what it's done is put me in a position where I have to be up here right now because I feel that unless I tell this to as many people around the world as I can, we don't have a future as we know it here in America....unless you digest what you are going to hear tonight and you do something about it.

BILLY GOODMAN:

There was a check issued to some lady in the State of Virginia. What it said on the back...on the back of the check was...

"When you go to cash this check, make sure you show the mark on your hand." I'll leave that right there for now.

My next guest on the VIP panel is the real "Rambo" and he believes there are still prisoners of war in Southeast Asia. I'm talking about Colonel Bo Gritz. Colonel...(ovation). As you can hear here, he is a real hero. But, Colonel, come on, prisoners of war still today?

BO GRITZ:

Billy, I don't believe...I know it! You may wonder why a Green Beret colonel is mixed in with people who are talking about bases on the moon, one world government, cashless societies, but it is because I represent one more card in that deck. I didn't choose, I was chosen by the Executive Branch to go into the jungle, come back and tell them there were no prisoners left alive. It's not true. They are there, and I know why they are there now...and I know those people who are in our Executive Branch who have reason to cover them up until they are no longer there...and that's what we are doing here tonight... to try, Billy, through each one of us, in our experiences, to relate the truth about what's happening. I think you will find that it dovetails very well. It all comes down to one thing and that will be the conclusion of this "Happening" tonight.

BILLY GOODMAN:

Thank you, Colonel Bo Gritz. A man who was in the jungles. He was there, he knows what he is talking about. Colonel Bo Gritz related to me that he was told to go to Southeast Asia, but to come back and tell us there are no prisoners of war. He can't do that any longer...and we'll talk more about that.

There's been a lot of talk lately about cancer. Of course, it's always been in the news. I'm sure you've lost many of your loved ones. But do you think it's possible that there is something available that could not only help cure cancer, but maybe even prevent cancer? I know what you're saying: "Come on, Billy, you're losing your mind." My next guest on the VIP panel goes by the name of "Wally" and he knows all about something known as the Ozone Oxygen Generator. What the heck is an Ozone Oxygen Generator, Wally? Tell us about it.

WALLY:

An Ozone Oxygen Generator is...all it is, is just taking USP pharmaceutical grade O2 and running it across the corona arc inside the Ozone Generator and converting the O2 oxygen into

O2 ozone...and picking it up into a 60cc syringe and putting it in a 25G butterfly needle and injecting it directly into the blood stream. That is one application. There are many others and... we have one out of three people in our society who has cancer. It's directly attributed to lack of oxygen in our atmosphere. We are no longer in an aerobic environment, we are in an anaerobic environment...meaning, we don't have enough oxygen, so our cells will do one of two things...they will either die off or they will convert into a plant cell. That's all cancer is, a plant cell. Believe it or not. A man who proved this was a Dr. Otto Warburg, 1923. He was a German biophysicist who got the Nobel Peace Prize for this twice, in 1931 and in 1950. At the Cancer Institute of America, they proved his findings to be correct and suppressed this and hid this from our society. It's a real sad situation, but that's another piece of this puzzle.

BILLY GOODMAN:

"Sad" is not the word for it, for this man...I lost my mother because of cancer...I lost a couple of uncles because of cancer... and now I've heard that they could still be living today. If not only using the Ozone Oxygen Generator, there are other cancer cures, and we have them here today. I wish you could be here to share it with us, but we will be talking about it, hopefully we will touch on it, and maybe we will show you, and you are probably saying out there, "What the heck do cancer cures have to do with Colonel Bo Gritz talking about prisoners of war, Virgil Armstrong, bases on the moon?" I'll tell you what it's all about. It's all about the same thing. The only reason you don't know about what we have just talked about, and other cancer cures, is that the government doesn't want you to know. Why? I don't know that answer. Maybe we will get to that answer today.

Next on the VIP panel is a young man who called me on the "Billy Goodman Happening". He's an ex-member of the Special Forces, someone who really got involved...so involved, as a matter of fact, he has talked to attorneys and judges about something called "Congressional amnesty" because recently there has been information passed out by a government scientist who saw not only one flying saucer, but as many as nine flying saucers...and he wants more people to come forward from an area called S-4, right here near Las Vegas, Nevada. They are afraid to come forward because if they do they could wind up in jail or they could wind up fined a lot of money and lose their benefits from the government. But if we could put a Congressional amnesty together, I understand that they could come forward. So my next guest on the VIP panel is a gentlemen by the name of Richard Murray. Richard, what the heck is "Congressional amnesty"?

RICHARD MURRAY:

Congressional amnesty is based on a Congressional investigation. When I first got started with this, for years I went around and

talked and talked and I just became crazy. I was blue in the face, no one would listen to me. Then all of a sudden I look in rooms like this where there are 800, 900 people and we have to make a movement if we want this information to come out. Our movement needs to be strategically planned, strategically operated like we are members of a war room. We need to bring this out and we need to educate ourselves. I had a man tell me one time that he challenged me to take back my mind, and that more sense to me than anything I ever heard, because ever since I was a child I realized my whole mind has been stifled by what I saw on television and what I heard in the news, and when I read secret documents that proved the ghettos will always be ghettos, where they can test their drugs and diseases, and that certain people will be allowed to be wealthy, certain areas of our lives will be restricted for us to go into, I said, "This is a crock of crap. This is America! This is a land of plenty!" I took an oath to protect the Constitution of this county, the same as many men and women in this group did. So now I just figured I will just do what I can do. What I felt I could do was to plan right along with these gentlemen and get actual strategic inside information on where we can set up a plan of movement for us to go into. So I put together six letters that you can take and copy and give to your friends; you can do whatever you want with them. I ask you to send them in, return receipt requested. Let's start stockpiling this information. Let's go after these big boys. They work for us, we don't work for them!!

BILLY GOODMAN:

So very, very well put, Richard. That is the truth. Where it got to the point they are superstars all of a sudden is beyond me, too. But it seems like every state in the Union, they have their own congressman and senators and governors and they are more important than the people.

My next guest on the VIP panel is probably one of the leading experts on UFOs. Also a man who predicted, right on my "Billy Goodman Happening" back in August, 1989. He said, "Billy, the Berlin Wall will collapse. The European countries will have no boundaries." Well, of course I was listening to him. I said, "Well, o.k., it sounds interesting. But if that were to happen I would call him a psychic." But he is a man who has come through an awful lot in life and a man who puts his life on the line, much like the folks here on the VIP panel today. He said to me on the air, "Billy, my life doesn't mean anything to me if I can't have freedom." He also told me a story. He said, "Billy, I saw a UFO. I saw it come out of the water when I was in the service and I saw top secret papers." We'll get into that. First, Bill Cooper, tell us about seeing that fabulous UFO coming up out of the water. Let's hear his story! (ovation)

BILL COOPER:

Well, when I was in the Navy, Billy, as a very junior member of the Navy, stationed on a submarine, which I volunteered for, I was the port lookout on a transit between the Portland/Seattle area and the submarine base at Pearl Harbor. I saw a...what was commonly referred to as a UFO, the size of a midway class aircraft carrier come up out of the water and turn on its axis and go up into the clouds. Needless to say, I was dumbfounded and knew that my responsibilities dictated that I had to report this, lest this object was hostile to the vessel and the crew which I served. But I didn't want to say what I had seen because I didn't want to be branded as a looney bin crazy either, in case nobody else saw it. At that point, I knew that they hadn't. I notified the officer of the deck. He helped cover the area without knowing what I had seen. After a few seconds, either the same object or a different object that looked exactly like it, came back down out of the clouds, repeated the same maneuver, and went back down into the water. The captain was called to the bridge and he was followed by the chief quartermaster, who took photographs with a 35mm camera, and myself, the officer of the deck, Ensign Ball, the captain of the vessel, the chief quartermaster and the star-board lookout...we watched this repeat itself repeatedly over a seven to ten-minute period of time. We were told not to discuss it by the captain, not even to talk about it amongst ourselves. When we berthed at Pearl Harbor, an officer of Naval Intelligence came on board. We were not allowed to leave the vessel on normal liberty until we had spoken to him individually, one at a time... and basically what he wanted to know was, what did we see? I began to tell him what I saw and this man flew into a tirade at me. Having come from a military family and having served already four years in the United States Air Force, in Strategic Air Command, I knew what he wanted to hear. I told him, "Sir, I didn't see anything." He then had me sign a security oath saying that I would never talk about nothing I had never seen, and that was the end of that.

BILLY GOODMAN:

Thank you, Bill Cooper, and thank you all the rest of the VIP panel. America...we hope you have awakened a little bit more than when you first tuned in tonight. I want to introduce a special person. A special person who is my co-host today on the show. This is a young man who works up in San Francisco in another radio station, listens to the "Billy Goodman Happening" every night with one earphone in this ear and does his own show with the other. I don't know how he does it, but he does it. He is a man who knows all there is to know about "Alternative 3". He follows everything you've heard about here on the VIP panel and is my co-host. I want you to meet him and I want you to give him a round of applause...Roger Nelson. (ovation)

ROGER NELSON:

Well, thank you, Billy. I got into all this...the reason I'm standing here is because I took John Mitchell, the Attorney General of the United States during the Nixon Administration, for his word. He said a couple of things. He said, "Don't watch what we say, watch what we do." and number two was, "Follow the money." That's why I'm here. I have opened my eyes. I shut off the TV set. I became an information junky, but not of the media. I found a great source, God bless her soul, Mae Brussell. I am a Brussell sprout. People recognize that name...and I have followed the money and I have watched what they do, not what they say. That's why I can rubber stamp everything I have heard on this distinguished panel today. I've seen some, very little in some cases, some a lot, of what they have to say. It's all true and it's all valid and the reason I'm here is because I've learned it and I'm here to pass it on. And I hope every single one of you will do exactly the same thing.

BILLY GOODMAN:

We're back and we have a question out here in the audience. What is your name, please?

John Doe.

John Doe, welcome. OK, John, are you a comedian or do you have a question? Now come on, be honest.

JOHN:

I have a question. It's for Bill Cooper. I put this question to Bill English at the MUFON Convention and like your congressmen, he wouldn't touch it with a ten-foot pole. After reading your sworn statement in "UFO Universe" I just wonder if you can shed a little light on the subject for the audience here. The grays (an alien race) have boasted on several occasions that they're the manipulators of DNA molecule, they created Jesus Christ for our spiritual enlightenment. Can you comment on that, and the RH blood factor, and possibly the hologram machine that recorded the crucifixion.

BILL COOPER:

Ah yes, I would be happy to. What I read in the documents I was privy to see between 1970 and 1973 was that the aliens we are exchanging information with told us that they were responsible for the manipulation of our species throughout our history through religion, witchcraft, secret societies, all different kinds of things, and that indeed they had created and were responsible for the person we call Jesus Christ who was sent to give us some sort of a message. Whether this is true or not, I don't have any way of knowing. I can say that I showed you today in my presentation

the book, "After Its Kind", which has the alien insignia on the front and was first printed in 1927, which purports that there were outside influences other than earth, and propounds a scientific creationist point of view...and by the way, if you read the book, you'll find it is very scientific and not at all from a religious standpoint. Also, the presence of RH negative factor in the human blood signifies and has been stated to signify that there has been some outside interbreeding with the human race at some point in our history, other than the normal evolutionary progress that we would have. It is not a mutation, not any of those things that always revert back to what they began to be. It is some kind of outside introduction into the human race of another completely different blood factor which is completely absent of the RH factor which is supposedly the link between us and the primate, the Reeces monkey.

ROGER NELSON:

This is a question for Colonel Bo Gritz. What is your name, sir?

Bud.

BUD:

Colonel Bo Gritz, I would like to have you, if you would please, give us the information you have concerning the importation of drugs from Southeast Asia into the United States in military aircraft or CIA controlled aircraft and the people responsible for being behind it in our government.

BO GRITZ:

In 1986 I was asked by the White House to go into Burma as the first American agent to do so, and penetrate the inner sanctum of General Khun Sa. It was said that he had prisoners of war and that's been my mission since 1979, to find them. I went there. Khun Sa had no prisoners. He said he would stop all of the heroin and he would reveal all of the U.S. government officials who have been his best customers for more than fifteen years. I do know that during the Vietnam War, from 1964 until 1969, I commanded special operations troops. I had an army of Cambodians. I know that there are as many bomb holes in Cambodia and Laos as there are in Vietnam and I know that Congress did not authorize any troops to be there to do that. I know that Air America was more affectionately known by the GIs as Air Opium because they did use drugs from the Golden Triangle and they did fly them aboard Air America, and that that money did pay for mercenary armies the U.S. Congress did not know about. I know that 308 POWs were left to die alone at the hands of our enemies because Henry Kissinger would not allow the Laotians to negotiate because it would have revealed the secret war. Then somebody might have asked, "Where did you get the money to conduct it." Then the

drug operations would have been revealed. I know that as commander of Special Forces in Latin America and as a person in charge of covert operations there, at the same time George Bush was President of the CIA. I know that during that period we discovered Manuel Noriega. Of course, we knew from Omar Torrijos, the director at that time, that he was the funnel for drugs into America. He played a much larger role in 1975, '76 and '77, the time I was there, than he does today. We set a plan in motion that would have eliminated him in 1976. I was told to keep my hands off of him, that he had, quote: "Immense value at the highest level." When I questioned that, I was told we were paying him as much as the President to be a CIA asset.

I don't know any other CIA agent in the history of the agency that's been paid \$200,000 a year, not counting the money made off the drugs that he was shipping into the U.S., but Noriega was and he was working for Bush, who at that time was Director of the Central Intelligence Agency. I know that I was told to keep my hands off of him and as a good soldier at that time, I did. I know that we brought back information in '86, '87 and '89 that Richard Armatage, the Assistant Secretary of Defense, was the bag man to this government drug operation. I know we presented the films and video tapes to the White House and received no interest at all. I know that Richard Armatage was appointed by George Bush as Assistant Secretary of State and because of people like you who were angry enough to begin to call Clayborn Pale, he was removed by the Administration. Almost unprecedented, they took him out and put him in as Secretary of the Army. And that made me mad because we lost 58,000 young men and women, age nineteen years, that's the average, in Vietnam to hostile fire. We lost 75,000 to the drug runners and this man was to be Secretary of the Army? You began to call Sam Nunn, who was Chairman of the Armed Services Committee. Rather than be investigated like Mr. Tower was, to the embarrassment of the Administration, Richard Armatage quit...and I know today he is being appointed or considered to be appointed right now as we speak, as the President's personal National Security Advisor. So that should tell you something. I know that you are never going to get anything out of Manuel Noriega and of course other questions will flush that out. (ovation)

ROGER NELSON:

Roger Nelson here and who are you?

George.

GEORGE:

Late last year, when all of the media were carrying stories about sightings and the crash in the Soviet Union, I saw two government responses and I would like the panel to address them, and I have another question. First of all, I heard one person say, "I can answer that with one word: vodka"...and another responded by

making a comment concerning Premier Gorbachov, Glasnost and Paristrika. He made a remark about their drinking habits. Now the question is, if there is a doctor in the house, how much vodka do you have to drink to see things of that nature.

BILL COOPER:

Well, we know Colonel Bo Gritz doesn't drink, so he can't answer that question.

BILLY GOODMAN:

Getting back to more of "Wake up, America," I have a question right here, and your name is?

My name is Araha.

ARAHA:

A question regarding the cashless society. I'm not really sure what the cashless society is and if you're telling us everyone in power already controls the money and the government, why do they want to change it if they have all the money?

BILLY GOODMAN:

Maybe Brad Kleitz can answer that question.

BRAD KLEITZ:

It's taken me about ten years to try and to try and figure that same thing out myself. Let me read something to you. I have two paragraphs here that are going to show you that this isn't something that has come on quickly in Europe. This is by David Ben Gurion when he was Prime Minister of Isreal. Now this reflects directly to the cashless society because these people, they're long term thinkers. Fifty years for them is not a long time. They have the power, they have the money and they have the intelligence. They can harvest the intelligentsia all the way around the world and use it for whatever they choose, at any given time. This came out of Look Magazine, January 16, 1962. David Ben Gurion, when Prime Minister of Isreal - the image of the world in 1987, as traced in his imagination.

"The Cold War will be a thing of the past." (Remember, this is written over 25 years ago...the Cold War will be a thing of the past) "Internal pressure of the constantly growing intelligentsia in Russia for more freedom and the pressure of the masses for raising the standards of living may lead to a gradual democratization of the Soviet Union. On the other hand, the increasing influence of the workers and farmers..." (Who, by the way, are becoming the oppressed

in this nation. But in this article it suggests that they are the ones responsible for what follows here) "The workers and farmers and the rising political importance of the men of science may transform the United States into a welfare state planned economy." (Believe me, this is what is planned for the United States) "Western and Eastern Europe..." (Notice he says Eastern Europe, the Communist bloc) "will become a federation of autonomous states having a socialist and democratic regime, with the exception of the USSR as a federation Eurasian state. All other countries will become united in a world alliance, at whose disposal will be an international police force."

That was twenty-five years ago. My feeling is that this man was privy to plans that none of us have known about, but they have for a long time. That is part of the backbone and structure of the cashless society that has also been engineered by the technology that Bill has been talking about, that we know nothing about. It's on its way and if we don't get together as a solid body, we will live to experience revelations of the great visionary John in the Bible.

I gave everybody, or some people, several hundred of these I passed out (Trilateral Commission charts). If you have these, could you pull these out. I want to answer that woman's question just as quickly as I can, but it will give you concrete information of the machinery that is going to be coming in our direction in the near future. This card (please refer to charts, page 26) right at the top is called the final ID transaction card. On the corner on this side it has a universal product code...is everybody familiar with the universal product code? What that code is...when you go to the grocery store, they drag that over the laser. Well, that code is supposed to be to label products only. They also have an idea that people would fit that code right nicely and I'm going to get into the evolution of that as quickly as I can. OK, there is a magnetic strip on this bank card, there is a picture of the individual and a signature to be signed. The international access code of this card, the reason it is called a world ID card, is because they want us in a world identification computer system. It's got, and I'm going to explain how in a minute, 666 encoded in every single product code that we have been using, since it came out. Now I will show you the reality of that in a second...and you think that this book that was written by Mary Ralph(?)...she is minister in Montgomery, Alabama...that's where I got this information... you think this card is a thing of the future? Ted Koppel brought this card out on the NBC News and what he said was, this card is now being issued to the Palestinians in order to access Isreal. I've got that video tape at my house. I am going to wrap this up and I am going to get back to the use of this universal product code and where that 666 comes from later.

BILLY GOODMAN:

Roger Nelson, what do you think about what you are hearing today?

ROGER NELSON:

It is exactly what I've been listening to on your program for the past many months on the radio, and it's also part-and-partial of the information I have gathered over the last several years. Now another thing that is part of the scenario, that hasn't exactly been thrashed about yet, is the "Alternative 3" scenario. That's whereby politicians and scientists got together in 1957 and decided there was no way out of a population problem and that the environment was going to be poisoned beyond your ability to use it, and they fabricated this program. They put it together. There were two alternatives discharged out of hand because apparently they were too radical. The third one, which seems rather extreme, was that they were going to get off the planet with the best and the brightest, while there was still a chance to do it. It is an ongoing problem and it has caused bases to be first placed on the Moon, later on Mars, and if you think that is a tough nut to crack, think about the Soviet space station up there. It is an independent biosphere you can anchor anywhere you want, onto any planet surface, and it is going on. Bill Cooper of course has confirmed much of the information that I put to him and others on the scenario. There is a book and a video tape reenactment of the "Alternative 3" scenario available. We are on Mars and there is life there.

BILLY GOODMAN:

That is what one of our guests on the VIP panel has been talking about, people on the Moon and Mars. I understand somebody has a question for Virgil Armstrong in the audience. Yes, what is your name?

Mark.

MARK:

Gentlemen, Mr. Armstrong, I have a question. I would like to present a scenario quickly, if I may. Just a few brush strokes. There was a very important movie that came out about ten years ago that particularly intrigued me. I have seen it several times now, called "Capricorn I". I urge everyone in the audience to see it. What's most interesting about this, is that it shows that it is possible for the media, in its great power and complexity, to completely alter our sense of perception to the extent that they can fake something as intricate as a space launch and I can see the reason for the establishment to want to do this. What I guess I want to ask you, sir, are you familiar with the movie, and if so, what is the possibility that something like this has happened or could happen? And secondly, that a gentleman by the

name of Bill Casey wrote a book called "We Never Went to the Moon". Just to summarize one of his key points , he says if we went to the Moon, scientists have theorized the Moon had a six to twelve-inch layer of dust on it, and that the retrorockets would have blased a cloud so big it would have completely hidden the rocket and would have made a blot large enough to be seen by the unaided eye on earth... and I'm wondering what your response to the observation is.

VIRGIL ARMSTRONG:

That's a bunch. Can I do something before I answer your question, at least in part? One thing is lacking here that is very much needed because all the information being put out is frightening in some cases. It's unsettling and I hear it and I see it causing a reaction here which I think is potentially dangerous. I think we are forgetting about something - a four-letter word called "love". Would you please turn to one another before I answer that question and say "I love you". Let's raise the vibrations in this room. Please do it.....thank you. Ladies and gentlemen, that is the greatest force you've got going for you right now (ovation) to address any of these issues that have been raised here today. Don't forget it. Moreover, let me tell you something else. There are many out there, I'm not talking amongst you, although there are, who are waiting for you to exact that very thing...to walk in love and light and balance. When you do that, many of the problems that fact you today of course will automatically dissolve and resolve. So make it a pledge as of this day to walk in love and light and balance. Many of the problems that many of us have talked about will go away if you walk in love and light and balance. Now to come back to that question, that simple question that man asked.

I cannot say I saw the movie "Capricorn I", but have heard about it and it was highly recommended to me. Due to my busy schedule I never did see it. Number two, I think it is irrefutable that we are on the Moon. As the gentleman said earlier, we've been there since the early 60s and quite possible since the late 50s. In my book called "The Armstrong Report", on pages 83 through 86, there is a report by an engineer who was on a spacecraft that took off from Stead AFB to the Moon and obviously to Mars and within an hour and one-half they were well beyond the Moon. The speed of the craft was over 300,000 MPH. Now that was in 1961 - we had the technology to do that. The Moon indeed, as also claimed by the Russians, is an artificial object within our solar system. It was actually driven in here and it was parked. The hypotheses was put forth by the very prestigious Soviet Academy of Sciences that the only explanation for that silly thing to be sitting in our solar system is that it is a spacecraft capable of being fired up and moved. Now there is an enigma that surrounds that, and again, that is on my tape, "What NASA Didn't Tell Us About the Moon". For instance, why is it that the craters on the Moon are only 2.5 miles deep? Why aren't some four or six or ten?

Well, we know the interior of the Moon is artificial and any object that impacts with it can go no further than 2.5 miles deep. One of the anomalies is, of course, we found out about them. Thank you.

BILLY GOODMAN:

All right, do we have any more questions in the audience today, as we are trying to wake up America. Yes, ma'am, do you have a question? What is your name, please?

Lauri.

LAURI:

I would like to ask Mr. Cooper about how involved is the Rockefeller family in the drug industry in America.

BILLY GOODMAN:

Well, how's about that one, Bill?

BILL COOPER:

Well, that's a question I have to say...I don't really know. What I do know, from the documents I saw, is that the black programs, many of the black programs, are financed by the importation and sale of illegal drugs. That the first operations were set in place and headed by George Bush in conjunction with the CIA where they were brought in through Central and South America to the offshore oil platforms of Zapata Oil, and as we all know from the research of many people, have branched to other areas of the world. Colonel Bo Gritz has told us, to the Golden Triangle in Asia. We now know that drugs are coming in by CIA propriety aircraft and even on some occasions, military aircraft. As I have revealed recently, a C-5A military aircraft was discovered landing at Dover AFB in Delaware with a cargo that was labeled "Top Secret". The crew of the aircraft did not know what the cargo contained and did not have the clearance to know anyway and when it was discovered what the cargo was, it was pure cocaine.

BILLY GOODMAN:

Perhaps we can have Colonel Bo Gritz respond on that about the drug situation.

BO GRITZ:

I like to reference...I like to pin people down by names. That way people can check them. There's a gentleman named Rick Schneider from Alaska who was a member of the Strategic Reconnaissance Aircraft who told me he was approached by members of the Central Intelligence Agency to bring back drugs into the United

States aboard these Strategic Reconnaissance Aircraft because they were always exempt from customs since they had top secret and special intelligence gear aboard and they always landed at military installations. He simply refused to be a part of it and they didn't give him any hassle. I don't think there is any question that when we were dealing in the Contra situation and Congress would not allow us in the United States to fund the Contras, that we sent through Southern Air...that is, the new Air Opium...we sent through Southern Air, arms to the Contras, to Honduras, Costa Rica, and brought back drugs in equal amounts to the ton. As a matter of fact, video tapes I have right outside show 26,000 pounds of arms going down to Costa Rica, 26,000 pounds of drugs coming back and being landed at Holmstead AFB and other places like Laguna SEC Army Airfield which are very tight security.

BILLY GOODMAN:

All right. Colonel Bo Gritz, we thank you very much. I hope you are enjoying what you are hearing today. We're not here to frighten you, we're here basically to enlighten you and to urge you to wake up, America.

ROGER NELSON:

I understand that, Billy. As a matter of fact, I saw a document at the radio station last night that Richard Murray had brought there, and it seemed to me to be a pretty concise plan of action. Richard, if you would just elucidate a bit on what I saw last night...that plan of action to attack Congress.

RICHARD MURRAY:

What he saw was a series of letters I put together so that we can be informed, so that we can let them know that we are informed. The whole plan of action here is that we are grass roots movement, everything has got to be non-violent and I stress that fact. Do not get into violent states in this movement. It's going to be big. The reason you cannot get into the violent act is because we do not want to give any reason at all for acts of FEMA to be implemented in the United States. We don't want to be a part of that and that's very important. You don't know how important that is. This is something that we are dealing with for the future so that our children, if we have children, will have lives in which they can be free. Like our forefathers set forth for us. What the letter simply states...the black operations around UFOs is going to open up Pandora's Box, it's already known.

I'll read you the letter real quickly.

"Dear Senator:

I am an American taxpayer and a registered voter in my state. I am fully aware and my social groups are

fully aware of UFOs being held in secret at the following bases: Nellis AFB in Nevada, Groom Lake, Sector 51, Sector S-4 at Dolce, New Mexico - an underground base; there are other bases we have proof of. They will be named as we proceed further. We know that they are there and we are concerned. We have heard from top secret government officials, scientists, astronauts and many well respected men of this nation as to some of the startling truths that exist around these situations.

The existence of the UFOs and the aliens that brought them here and the secret treaty signed with them are true and we have proof. We understand that there have been many black operations by certain sections of the government to fund the manufacturing of the technical discoveries found from actual recovered spacecraft. It is our understanding in these operations, that the funds obtained by many years of organized drug sales by high level government officials are channeled in to develop these projects. This would explain the reason why drugs are virtually impossible to be stopped in the streets of the United States. We disapprove of this action and we want to stop it now. You can help.

Let this letter act as an official request for a Congressional investigation into the secrecy of the UFOs and the black operations surrounding them. I also want Congressional amnesty for blanket protection for the following: government personnel, NASA officials, scientists, astronauts, civil workers, witnesses, members of MJ-12, CIA and FBI, anyone who had hands-on experience and proof.

This letter needs a reply. Please reply within ten working days of receipt of this letter as to your decision.

Sincerely yours,

Taxpayer and Voter"

That's the letter. It's one of six that are in this package. (ovation) This is only a start, ladies and gentlemen. This is the very start. This is the first step in the ladder of knowledge we need to obtain for ourselves so we can determine our next move. Thank you.

BILLY GOODMAN:

You can see the address on the screen, if you would like a copy of what Richard Murray just read. (Richard Murray, 3368 Governor Drive, Suite F-336, San Diego, California 92122) I urge you to write for that. It makes it a lot easier for you than to have

# FINAL CARD

five digits of the UPC. The last five digits represent the product, size and flavor. Price information, taxability, food stamp eligibility and other related information is stored in the computer at the store. The scanners can read the UPC labels right side up, upside down or sideways."

Grocery store instructions state: "This is the Universal Product Code, THE FIRST SIGN OF THE NEW SYSTEM."

## UPC: PHASE 2

A second series of UPC code marks soon began to appear on products. These had a second series of three or five smaller computer code marks below the major UPC. The smaller code marks convey additional information as required or desired.

## TRANSACTION CARD

## FINAL NUMBER in Bar Code

The world's greatest conspiracy is being quietly conducted in the most sacred halls of secular secrecy. While its thrust is Economic, its reach is without limit. No System will escape its mastery, be it Politics or Religion.

The Prime Mover is the most powerful Consortium of financial institutions, capitalists, and scientists ever leagued together. Their common purpose is to bring every person, place and thing under their control.

Their applied strategy is by way of IDENTIFICATION. This means of IDENTIFICATION is by way of assignment of MARKS (or bars) for NUMBERS read by machines. (Numbers people can read, Marks they can't... the name of this game... Secrecy).

PHASE I began in 1970 with a conscientious effort to "IDENTIFY EVERY ITEM" at the manufacturer's level with a NUMBER "MARKED" on it. A group of Numbers designated by Marks, lines or bars, is called a Bar Code. The Universal Product Code, (Code 39, etc.), and giant computer manufacturers are central to this phase.

PHASE II began in 1973 with an effort to IDENTIFY each PERSON with a Number. The Social Security Numbers when blended with the Universal Numbering System will be converted to "Bars." Initially, this NUMBER will be "Marked" on a Card; (a WORLD-

WIDE MONEY-ID-CARD). Subsequently, according to Bible Prophecy, it will be stamped upon the person it identifies. As the MARK OF IDENTITY on an ITEM is a Bar Code; so the MARK OF IDENTITY on a CARD and later on a person, will be a Bar Code facsimile. The Government, Banks, and Card Companies are central to this phase.

PHASE III is an effort to identify everything in the world whether mobile or stationary;

If mobile, then how to instantaneously locate it; as a piece of luggage, an expensive race horse, a family car, or a person. Central to this is the Federal Government which has spent ten years in research on "Electronic Identification" at Los Alamos; the Airlines, and private inventors.

If stationary, as a house, farm, or apartment, the United States Census Department is central to this phase.

## NOW PHASE 3

developed by IBM and others, another innovation has appeared. To the phase 2 marks have been added F and H, before and after the code markings.

It is anticipated that this is for personal identification. The F and H, standing for forehead or hand, probably will be used to specify that purchaser must have the required MARK in FOREHEAD or HAND before purchase can be consummated.

## UNIVERSAL PRODUCT CODE

The next step is the laser mark in the right hand or forehead. Scanners for registering these identification marks already are built into many checkstand units. When fully developed, credit and debit cards will be cancelled and all will be required to have laser-tattooed computer marks or numbers for identification.

An IBM #3666 Scanner not only reads the Universal Product Codes but it can also read the "invisible laser tattoo" that can be put in the hand or forehead by the "Laser Tattoo Gun" also invented by IBM.

The mechanics for total economic control is rapidly coming into existence. 666 is here! Soon will come the fateful decree: "Receive THE MARK or be put to death!"

## WHAT IS "THE MARK OF THE BEAST"?

"The Beast" is a Bible term for a world dictator-king who will come into power within one generation from the time of the rebirth of Israel as a nation. Toward the end of that generation (1948 plus \_\_ years), this king will become so prominent and

UPC Design #1, and "666"

FIGURE 8

Figure 8 is a copy of what I am calling Design #1, the most frequently used UPC Symbol. Some absolutes governing its construction are:

1. The only Marks in Design #1 unidentified by Numbers beneath will always be constructed as three 6's from Set 2.
2. This DESIGN is always divided into two sides, separated in the middle, and enclosed on both ends by "Uniform Marks" constructed as 6-6-6 from Set 2. Look at the Marks for 6, Set 2.
3. Ten hold Numbers are always printed beneath in this DESIGN.
4. Only Marks for Set 1 and Set 2 are used in this DESIGN.
5. The ten hold Numbers appear five on either side; as here, 11230 on Side A, and 80101 on Side B.
6. Side A will always use Marks from Set 1; Side B from Set 2. To illustrate this, see Figures 9 and 10.

to write your own letter. How easy can we make it? And hopefully you are waking up, America. Take a look at this! Isn't that a beautiful sculpture? The man you just listened to sculpted that. (See page ) And this you can see at the Smithsonian Institute but it's here because he's trying to say something. This is a space colony. Isn't that beautiful, absolutely gorgeous! OK, America, I think Roger Nelson has a question in the audience.

ROGER NELSON:

Yes we do. We have a question for Virgil Armstrong and Bill Cooper.

NO NAME:

Why didn't some investigative reporter go take up the trail of William Greer and why he shot the President, and will gold be good to buy in a cashless society?

ROGER NELSON:

That's a pretty good question.

BILL COOPER:

If you were here when I talked about the secret government, the extent of the influence and the infiltration of the government, the Council of Foreign Relations members, and the Trilateral Commission members, you can readily see that they control the media. They literally own all of the media and control it either through the boards of directors or through key men who are at the top of these corporations. Only their viewpoint is what you see. We don't see anything else except for what they want us to see. They don't want an investigative reporter to go to William Greer and find out the truth about the Kennedy assassination. I can guarantee you this, William Greer is going to close his trap real quick or he's going to end up like Kennedy did if he starts talking. The only reason he's alive today is because he knows how to keep his mouth shut.

As to the other question, you don't understand the implications of this cashless society. It will be impossible for you to purchase anything if you don't join their system. Everything through these computers can be traced. There will be no swap meets, there will be no money paid under the table. There will be no buried caches of gold and even if you bury it, if you attempt to go and purchase something with that gold, the record of that transaction will be traced. You will not be able to own anything as you can today without someone knowing where it came from and where it is going.

BILLY GOODMAN:

We have a lady over here with an interesting question. Let's find out what's on her mind. Lovely lady, how are you doing, who is your question for?

NO NAME:

Brad Kleitz. Brad, I would like to know anything about the Constitutional Convention that is supposed to be coming up and when it is supposed to take place.

BRAD KLEITZ:

I don't know when it is supposed to come up. I do know that thirty-two of the thirty-four states necessary to allow the Constitutional Convention to take place have ratified in their state legislatures, that they want that. I think it is very important that we take a look at who is promoting our Constitutional Convention. I'm glad we've got what we want and I think the state legislatures, as they're being reeducated, in time will reverse that decision, hopefully. I don't want to give these world powers a chance to get at a Constitutional Convention and come in there and get their sledge hammers and tear us apart. (ovation)

ROGER NELSON:

We have a question for Colonel Bo Gritz. Now, you have a question for the Colonel?

NO NAME:

I would like to know what he was originally charged with, when he went to court, the outcome of the trial and if he is going to run again for...was it Congressman?

BO GRITZ:

Thank you. I was told when I came back in 1987...I was in Thailand... that if I did not erase and forget everything that I had learned about the United States Government involvement in drug smuggling that I would serve fifteen years as a felon. I was told that I would hurt "the Government". A very accurate statement, certainly not "our" Government. I was told not to make the Government go drama, that no one wants to hurt a war hero. They would bury me with hostile witnesses and aggravated charges. I told them to stick it up their kilt. (laughter) When I returned to the United states they tried to charge me with five years for training Afghans in Southern Nevada but they forgot one thing, that is, a grand jury has to indict. The grand jury failed to indict. Then they tried to charge me with five years in California for violation of the

Neutrality Act, of which I'm guilty. I've been behind enemy lines more than ten times, in 1983, without the enemy's permission. It's true, but the FBI testified that I was an intelligence agent for ISA, an arm of the National Security Council, and so again they failed to indict. Here in Nevada, Bill Maddox, the US Attorney, indicted me for misuse of a passport. He is absolutely correct. I have misused passports all of my adult life as a Special Forces operator, and I did misuse one in 1986 at the request of the White House. I went into Burma. I was acquitted of that charge. Bill Maddox is now looking for a job as is the chief US Assistant Attorney who was before him. L.J. O'Neil turned out to be Country Joe and the Fish, an acid head rock group that was a war protest organization. I didn't know about that at the time. He had turned Fed. I am too busy with Paul Fisher, having a plan by which we can correct the many ills that you are hearing about right now, to even run for position of Congressman, because once you get up there your focus is so narrow. I think we need to take those people that are there and make them work for us. And if they don't work for us, we need to fire them and replace them with good citizens who will. (ovation) Now I am a person who like to name names. Let me read you something. It is part of Bill's answer, but let me give you some quick names here. As far as Rockefeller goes, Chase Manhattan Bank. See if you can recognize any of these corporations that he controls: Citicorp, the more than a hundred industries that are all a part of these banks, utilities, industrial companies, Exxon, AT&T, ITT, Metropolitan Life, Equitable Life, New York Life, Chase Manhattan of course, Eastern Airlines, Pan Am Airways, Boeing, TWA, Mobile Oil, Sperry Rand, ABC, CBS, RCA. Look at some of the people we are talking about and you see why a man is paid \$2,000,000 a year to be a showman on the six o'clock news. Here's who we've got on the Council of Foreign Relations: Thorton Bradshaw, RCA...Arlidge, ABC News...William Paley, CBS... Henry Muller, Time...Richard Smith, Newsweek...Peter Burnstein, US News and World Report...Max Frankel, New York Times... Catherine Graham, Washington Post...Thomas Johnson, Los Angeles Times... also David Brinkley, Charles Collingsworth, Dan Rather, Barbara Walters, etc. (ovation)

BRAD KLEITZ:

I would like to add to what Bo said in that Chase Manhattan Bank has over 50,000 affiliate banks spread around the world and I have a tape out there that Ron is making available to anybody who wants it, that itemizes Rockefeller's holdings and the Council of Foreign Relations and the Trilateral Commission and their involvement.

BILLY GOODMAN:

Yes, you have a question for Bill Cooper, I understand? What is your name.

My name is Robert.

Well, Robert, how are you today?

ROBERT:

Real good. Mr. Cooper, I have a two-part question. How directly involved are the aliens in this conspiracy to form a one world government, and two, how did Mrs. Kennedy escape being assassinated herself when she saw him turn around and shoot her husband?

BILL COOPER:

Well, number one, how deeply are the aliens involved, I do not know. But I do know any cursory examination of the history of the human race will find alien intervention at every turn and the intervention has always been on a high level and has always manipulated us in a particular direction. I think there is definitely involvement, to what level and how much I really don't know. I do know this, however, that we're not going to know until we get these people to tell the truth. There may not even be any aliens, as I told you in my talk. But having seen a craft myself, I doubt that that is the case, because I know there was nobody manipulating me when I saw a craft as big as an aircraft carrier come up out of the ocean, then go back down into the ocean and repeat this several times, and nothing we're capable of making is capable of interfacing from air to the water at that kind of speed without total disintegration ...I've seen jet aircraft fly off a catapult of an aircraft carrier at slow speed and hit the water and completely disintegrate to the point where there was no piece larger than a walnut. So you know what kind of forces I'm talking about.

Can you refresh my memory as to the second part of the question? Jacqueline Kennedy? The answer is very simple. These people at this level were not out to commit a massacre. They wanted to get rid of one man. They did it and they did it in a manner that caused total confusion and destroyed the political will of the nation for many, many years. That's all they were after. They are not after revenge. That's why they haven't done anything to me since I have become public. If they had been able to stop me before I had gone as totally public as I did, they would have done anything, even kill me, but now that I am in front of the public eye, they are not going to touch me with a ten-foot pole. They are going to practice damage control and there will probably be a very serious attempt to discredit me in the very near future.

ROGER NELSON:

We have a question over here for Virgil Armstrong.

NO NAME: .

Hi, Virgil. Didn't you help move a crashed UFO from White Sands, New Mexico to Ohio, under cover of night, or something like that? Could you tell us that, please?

VIRGIL ARMSTRONG:

I was in the service at the time and it's known as the White Sands New Mexico Incident. I was not directly physically involved, but I was the G-2 of the 82nd Airborne Division on loan to the Air Force. At that point, we were testing the feasibility as to whether or not a jet aircraft was stable enough platform to fire over the heads of our friendly troops to the enemies. There was some question as to whether or not the craft could slow down enough to introduce and sustain a stabilized platform. Now during the time we were actually running these tests, a wire came across my desk from the Third Army Headquarters down through V Corps, which said in essence that an unidentified flying object had landed at White Sands, New Mexico. Of course this is the first time I or anybody else had heard the term UFO. Myself and another man, an A-2 who was an Air Force officer and the commanding general were the ones who were privy to this and we followed it quite closely. It was an object which was intact, had landed in the middle of the White Sands Proving Ground. It was a hundred feet in diameter. Later on we took off five bodies. The bodies were diminutive in nature, the largest one was just under four feet. The others were all uniformly about three and one-half feet. They were humanoid per say, but they did not have the same digital process we have, they have four fingers as opposed to the five. Also, in their feet they were bipeds but they had four toes. They were all males. We discovered in the autopsy that each and every one of them had undergone a state of atrophication, in that the organic organs, such as the livers, kidneys, what have you, reached a point of disfunction as well as, of course, the ears, the nose, the hair and other things. Now this...also the mouth was immobile. They were an alabaster white in color. They all wore very tight silver uniforms. It was an anomaly, when we tried to cut those...when I say we, the US Army, Air Force...when they tried to remove those uniforms with scissors, they couldn't budge them. They had to finally use tin shears to get the uniforms off of the little bodies. When they did get the uniforms off, as I said, they were all male. They did have the remnants of testes; of course, they were non-functional, as all the organs were. The assumption was that they no longer needed the ingestion of foods such as we do, or the assimilation of it. They had some other system. Also, the mouth was immobile, indicating that they used telepathy as a means of communication. The ship itself presented quite a problem. There is a great deal of controversy even today about this. The Roswell Incident is probably the most documented case in the world. This case is still one of great controversy. There are two theories. The craft was actually buried on site or it was moved over land to Wright Patterson, which was the

newly established headquarters for the Air Force, which had been the Army Air Corps just before then.

BILLY GOODMAN:

I really hope you are enjoying what you are hearing and seeing. I've told you earlier that you are going to see and hear some things that you are going to think are impossible. Bases on the Moon, prisoners of war still in Southeast Asia, a cashless society, a possibility of a cure for cancer. There is a gentleman here who calls himself "Wally" and I don't know where he came up with the name "Wally". He is going to show us how this Ozone Oxygen Generator...Wally, tell us, how does this unit work, and what exactly does it do, and how can it benefit mankind?

WALLY:

Well, Billy, how it works is...what we have here is a USP pharmaceutical grade oxygen and it comes from the output side here of the bottle of oxygen to the input side here of the Ozone Oxygen Generator and it runs across the corona arc inside the generator, then it comes out of the output side. It's bubbling right now in some distilled quality water. Distilled water has no minerals in it, so it is very hungry. It is absorbing about 80% of the ozone that is going in there right now.

BILLY GOODMAN:

Are you telling us that if we drank ozone oxygenated water, we would be a lot more healthy?

WALLY:

This is what I'm told by other doctors and scientists. Of course, I cannot make any medical claims here in America, but it's not just oxygen, Billy. It's positive attitude, it's proper diet, it's a way of life, it's many, many things.

BILLY GOODMAN:

It's called the Ozone Oxygen Generator and there is also something else that is a spinoff from this, right? Something there is that puts ozone and oxygen in your air in homes too.

WALLY:

Yes, Billy, there is. There are many applications. There are applications for air conditioning duct systems, there are systems for jacuzzies and pools, so that we don't have to use chlorine, which is poisonous.

BILLY GOODMAN:

But as far as the air in someone's home...when they come in from all of the pollutants in the air, if they were to have an ozone... what is it called?...to have in their homes...

WALLY:

Basically a UV bulb, an ultra violet bulb.

BILLY GOODMAN:

But if they were to have it in their homes, it would clean up the air in their houses, so when they came in out of the pollutants and all the carbon monoxide in the air, they would gee healthier and they would live longer. Is that true?

WALLY:

This is true, Billy.

BILLY GOODMAN:

Thank you, Wally. Thank you very much. What do you think of this? I really want to hear. What do you think of this Ozone Oxygen Generator idea? I don't know if you heard about it being in your home. Do you think it is important or what? You have to understand that we all know there are UFOs, we all know that. That's why we are here. We all know that there are prisoners of war in Southeast Asia, because these men are telling us. This is the newest thing. It's been around for years but now it is coming to the forefront. It's for health. Because I'm a believer, if we don't have our health, there is no way in hell we can stay on this planet and solve the problems we are talking about today. That's how I feel about that. We have a question way up there, I believe, for Virgil Armstrong. Are you waking up, America?

ROGER NELSON:

Here's a question for Virgil Armstrong.

NO NAME:

Virgil, I would like to know, on the Moon base, if the Pleiadians are there. A lot of talk about different civilizations but no one has ever defined any particular civilization in connection with "Alternative 3". In the past I've done work for Wendell Stevens as an analyst and I can tell you that all that Billy Meier had to say and all of his witnesses, I could pass over very easily.

ROGER NELSON:

Excuse me, sir. You say you worked with Wendell Stevens? What is your name?

My name is Keurin (?)

VIRGIL ARMSTRONG:

Yes. Thank you. Wendell is a very good friend of mine also. I was recently with him in Frankfurt, Germany. He still is as delightful as ever. To answer your question, there are three civilizations on the Moon itself. One of them, Pleiadians. They live within the interior itself. I had the opportunity in the 70s to actually interface with one of those civilizations. In the vicinity of Wickenburg, Arizona. I had a 2½-year liaison with them. The information I relate today in public, on my tapes, in my books and so forth, actually came from that communication with them. In regards to the Pleiadians and many others who are interfacing with us right now...the reason I wrote the book "They Need Us, We Don't Need Them", we are being duped. We have what they need. They tell us that they are our superiors. They tell us that they put us here; probably they did but at this point in time in the game we have something they don't, and that is spirituality. They have lost theirs through pursuit of technology and mentality. They're back here to get what they have lost through abductions, taking our enzymes, genetic splices, ovarian eggs, semen and other things. It isn't going to work. We have become the most evolved of all races at this point. That's why I emphasized earlier, LOVE. They have lost love. We still have it. We must practice it. PLEASE DO IT! Thank you.

BILLY GOODMAN:

Ladies and gentlemen, you've heard Bo Gritz refer to this man. You've heard me talk about him on the "Billy Goodman Happening". He was a guest on my "Happening". This man is the man who manufactures the pens for all the astronauts and even the cosmonauts. I guess you don't play favorites.

PAUL FISHER:

No, they all pay for them at the same price.

BILLY GOODMAN:

It's called the Fisher "Super Space Pen". Let's hear it for Mr. Paul Fisher. (ovation)

PAUL FISHER:

The income tax is designed because those with the money and power didn't want to pay taxes. So they said, we'll take it away from the poor. Well, the poor doesn't have anything to tax, so they said, we are going to take it away before they get it. So they invented the income tax and the payroll tax. We have plan that will abolish all income taxes, all payroll taxes, all sales taxes.

(ovation) We can balance the Federal Budget the first year by reasonable tax upon the concentrations of wealth. A plan suggested by Thomas Jefferson in 1785. There are over thirty-five trillion dollars in assets in this county. A reasonable tax of 3% a year average would raise over one trillion dollars, pay the entire expenses of the Federal Government and start to pay off the Federal Debt. (ovation)

BILLY GOODMAN:

Paul Fisher, a pleasure. I love that idea. How about the rest of you? Boy! That could solve a lot of problems for us, couldn't it?

By the way, I also want to introduce another gentleman in the audience. You have seen him in many different movies. Most recently he is a star in "Superboy", but he is really involved in this UFO movement. I want you to say hello to Michael Callan. (ovation) You see him moving around here, he's not quite sure of what's going on. He said, "Is this for real?" He said to me, "Man, this is better than the Oscars." He's a lot of fun and he is into this UFO movement. Let me ask you something. Are you having a good time? (ovation)

Now, we are going to hear from each member of the VIP panel. They are going to tell you exactly what their main forte is, their experiences and what they want you to do to wake up America. First, let's hear from the man who was once a major in the Special Forces. Also a man who was very instrumental in convincing America that we had problems with Korea. They didn't know it until this man told them. A man who believed, as Colonel Bo Gritz mentioned earlier, that whatever America did was fine with him, back in the days when he was in the service. Today he doesn't feel the same way. This is Virgil Armstrong. Virgil, tell us what is going on.

VIRGIL ARMSTRONG:

Billy, what I would like to do is a summation of all that has been said and what I have said. I'd like to remind you of something that is said in the Mayan prophecy, in the Mayan calendar. I worked with the Indians for eighteen years and the most profound thing I ever heard in terms of what's to...hold for us in the future, is simply this: it says government, science and religion will collapse unless they can accommodate incoming spirit. You're seeing that all over the world right now. The Berlin Wall has come down, Czechoslovakia, we have Rumania, we have Hungary, and many others who are reaching for the light. Our government included. If they cannot listen to you, if they cannot abide by the wishes of the people, it stands to lose also. I say to you, you must be prepared for this. There may not be a cashless society, in my mind it could be a great thing. We could do away with it and start from scratch. We would all find a way through

our inner resources to love and light and balance to survive our government. We can. Jesus said 2,000 years ago, "Know ye not that ye are Gods?", and I remind you of the same thing. Know ye not that ye are Gods and do something about it. Thank you and God bless you. (ovation)

BILLY GOODMAN:

Virgil, that was terrific. It is right on the money. You are a beautiful person. I hear it from you. I can hear it speaking. You went all the way from going out there and killing people, and believe me, that was the thing to do; you are all the way into the spiritual scales. We welcome you here, man, we welcome people like you. Boy, I tell you, you heard Virgil Armstrong just now. I hope you felt the same way everybody in the audience just felt.

Now we are going to hear from a young man who is not a professional, who is in the construction business here in Las Vegas. But a man who has had a quest all his life and he knows it. He's not quite sure why he is being led, but he knows that there's something that has to change. This young man told me that he has a cabin up in the woods because he really believes that something can happen if we don't change things. If it does happen we are talking about the total collapse of this country, he is going to go up there and hopefully ward off all of the evil spirits coming his way and he knows there are many. I want you to listen to Brad Kleitz. This man has a lot to say. Brad, tell us, the cashless society, what's going on with the produce and our canned food, and what's happening when they are being registered elsewhere in the world.

BRAD KLEITZ:

Thank you, Billy. I do have a cabin, or rather I'm planning on getting one. I have preparations made, but that's why I'm here. I don't want to have to go up there. I don't want to do that. I'm doing everything I can to let everybody know what I have learned. These men on this panel here with me...I've talked to many of them in private and I know that they know the urgency of what is going on here tonight. I don't think any of you brought a can peaches, but what I want to talk about as fast as I can is this Universal Product Code because it's very important. It's very instrumental to the system that they plan on implementing unless we stop them. The best way to stop them is to be informed and get mad and say no! I am not going to let that happen. If you look at the Universal Product Code, the one that is used the most...if you still have these papers, you can take a quick look but I will try to explain this as quickly as I can. Universal Product Code runs with numbers one through nine. Each number has two bar lines. They vary in width according to the number that they're assigned to. There are two and one-half sets of those numbers or those bar lines per number. If you look on

the right hand side of every bar code, you will find five numbers at the bottom, and at the left hand side, five numbers at the bottom. The left hand side stands for the manufacturer, the right hand side stands for the product itself. Now, there are three equal parallel bars, one on the right hand side of the bar code, one on the left hand side of the bar code, and one in the middle of the bar code. All three of those lines stick down below the right of those bar code lines. If you look at those when you go home tonight or if you have those here tonight, you will find in the right bank of numbers a six. Look at that because it will always be the same. That six will be an equal parallel bar. It's on the outside center, on the other side of the bar code, and that is the International Access Code 666. That is used to access the International Code, our computer system in Luxemburg and in Europe and in Brussels, Belgium, which is running the common market. They are planning to link every product that you buy with a similar bar code laser tattoo and it will contain the information that is necessary to ID us with the computer system. It will also have, everything has the 666 International Access Code. The next code that will be on there is the code for the United States, which is one through ten, then the area code and our social security numbers. That information will be put on the right hand or on the forehead. That is already planned. I've got documents of people that I don't have time to get into. I'm trying to do this as quickly as I can. So in essence, the way it would work is, every man and woman and child...children are already given social security numbers at two years of age or older, if you want a deduction on your taxes... will be tattooed. You will throw away all credit cards, all checks. You will get a laser tattoo. This is how we will transact business and ID ourselves everywhere we go. This is what Bill is referring to when he said they have 24-hour access availability to what we do. It gets into a very high-tech situation. We can't let this happen. If you go home and look at what I told you, you will find that we've been using this system since the early seventies. We've got to stop it. Using the force Virgil Armstrong so beautifully brought out here that I assume everyone here has, because it's a special breed of people that the love force comes to. We can use that force, we can actuate that force and that's the only force that's going to stop what we are up against. Thank you. (ovation) (Please refer to charts on pages 26 - 29)

BILLY GOODMAN:

Brad, you said that so perfectly. Thanks for all the work you did for us. Thanks for being here. You are really a super guy. It's a pleasure to know you, I'll tell you that much. I hope you haven't been frightened. I just hope you have been enlightened, because that is what this is about.

Colonel Bo Gritz, he has been on the "Happening" a number of times. As a matter of fact, he reports exclusively on the "Billy Goodman Happening", KVEG 840 AM. That report is already

spreading as far away as Australia. He's on every night a good five to ten minutes, and of course, every once in a while he stops by for three hours and takes your questions from all over the West Coast. He also has a real goal in his life. He's involved with the Center for Action, along with Paul Fisher, whom you heard earlier. He's a man who said to me one time...he said, "Billy, we have to take one more hill," and guess what hill that was...Capitol Hill.

BO GRITZ:

Billy, I want to congratulate you and I know I speak for Paul Fisher, on your accuracy. This has not only been scientific, but a very spiritual happening tonight. This isn't the last we're going to hear from all of you who have attended this session, I know. We share one thing, that I as a soldier learned from the battlefield, which is the most honest place on the fact of the Earth. There aren't any words in combat, You either put it on the ground or you don't. We are all here patriots. You can't pay patriots. There's no way you are going to pay an Armstrong or a Kleitz or anyone else that you've heard tonight. You're here, you're watching, you're participating because of love. Love for the greatest country on the face of the Earth. You don't find boatloads heading for the Soviet Union. Love for this government which has been the greatest government for more than two hundred years, despite what's happening today. In spite of it, I love you. I love Paul Fisher because Fisher doesn't care what's wrong, as a scientist he just wants to fix it. So when I came out of the jungles of Burma and I wouldn't give up because the government said, "We'll bury you if you don't erase and forget," Paul Fisher said, "Bo, you and I need to get together. You know what's wrong. I don't care what's wrong. I just got a solution." And by golly, we're going to do it. Let me give you a quick summary of what I believe is going to happen, what I know that all of you are going to help all of us prevent. Number one is, I don't think we should send our soldiers anymore until the ones we sent are brought home. I demand freedom now for prisoners of war. Number two is, I'm tired of a war of words in drugs. We can win the war against drugs and by golly, the President has declared war. We are going to fix bayonets in the Center for Action and we're going to win the war in spite of what they may or may not intend to do. I'm afraid in Latin America we are going to see a super canal created. That's why we have war focused in Central America on drugs now. You are not going to get anything out of Manuel Noriega. There's a thing called the Classified Information Procedures Act that will prevent him from saying anything. You are going to see us go into Nicaragua. Right up here in Yucca Mountain we've experienced underground atomic demolitions...they say they've cleaned them up...so that we can literally, in the flash of an eye, create a brand new super canal in Nicaragua that will take the place of the Panama Canal, which is obsolete. It won't let any super tankers in.

Now by just being aware, if that's what we want to do, OK, let's do it as a nation, but let's not be tricked anymore. Billy was right. I did say, and I believe it...there is one more hill to take and that is Capitol Hill. It's time we balance the Federal Budget. The Graham-Rudman Act is not doing it. Japan can't buy anymore of California because the Arabs won't sell. And we are a nation on the verge of overdose. Now this is our country. They may bury us but we are not going to run. I agree...we don't take Capitol Hill with bayonets or bombs or bullets, we take it if we have to with ballots. The Center for Action, Paul Fisher and myself. We have a plan. We'll find...because I know they're out there somewhere. Maybe they're already in office. We talked to Gebhart and others. We're going to find a true American to lead America in 1992 and we're going to elect him. Then, secondly, in 1993, we're going to pass what's been talked about here tonight. It's called a survival amendment that will legalize and federalize the Fed. It will clean up the environment. It will put America's education back on top. Right now we are number eight scholastically, behind Mexico. You know why we're going to do it? We're going to do it because of the last four letters in the word "American" - I-Can, and we will and we must and that's an order. (ovation)

BILLY GOODMAN:

You are a Rambo. No question about it. I don't know if you know this. It's a true fact. Colonel Bo Gritz took a bullet in the head and it bounced off. The bullet didn't know it was supposed to penetrate and Bo didn't know it was supposed to penetrate so he mustn't feel a thing about it.

Our next guest on the VIP panel, of course, is a young man who has worked very, very hard. The Colonel has talked about him, everybody on the panel has talked about him, because he has done so much work. He's put together a special form you can send for. We hope that you will act and just send for it. It's a very simple thing to do. He's done all the work for you. All you have to do is sign your name, send it to your congressman or your senator or your governor, anybody. Make sure your neighbors know about it too. I want to present a man who is putting together perhaps one of the most important pieces of paper because they're really trying to get Congress to understand that there are people who really want to tell the truth but they are afraid to. Now Richard Murray may have a solution as to how they can do it without getting into trouble doing it. Richard Murray...

RICHARD MURRAY:

Hi, ladies and gentlemen, how are you? When I was growing up, I was told that this was a country in which I could do anything that I wanted to. That I could reach the stars. That I could be what I wanted to be. Now I hear the third world government moving in and I know our prisoners of war are still back there.

I'm seeing the time frame running out on us, and I'm saying, "Brother, there goes my career." I feel honestly in my heart that you don't want this to happen as much as I don't want this to happen. I took it upon myself to find out as much information as I could. It's incredible what you can find out; if you put your heart and mind to it, it will come to you. I'm just one man but I have compiled more information than I ever thought was possible and I challenge each and every one of you to do the same thing. This is your country just as much as it is my country. If I had my way with this country, I would take the President, the CFR, David Rockefeller and bust them for treason. (ovation) These men that we have voted into office are not leaders. When you hear people like Bo Gritz, when you hear people like Bill Cooper, you hear what leaders are all about. Virgil Armstrong and everybody I've been associated with, these men are leaders. They get up and take action. They don't have to steal from you, to have control over you. They don't want control over you. They want to set a pattern of your life so your life is better and you can do what you want to do. That's what the hell this is all about. We have people up there that claim that they are leaders but they are criminals. This has got to stop! This has got to stop! I'm going to do everything I can. I'm going to tell you right now, there are only two things that are going to stop this...they're accountability - we have to be accountable for all our actions - and responsibility and when I use the word "responsibility" I'm not looking for fault or blame. I have an ability to respond to any given situation I've been given. That's how I've served. In war, these are the only two things that bring you out of the bush alive besides a lot of ammo and grenades. It's your ability to respond to any given situation. I'm telling you, each and every one of you, you've got the ability to respond to the betterment and enrichment of your own lives. This is still a free country. Let's keep it this way. Let's kick these aliens off this planet. This planet is ours. (ovation)

BILLY GOODMAN:

I really hope you've noticed the type of person who's been on the VIP panel today. Majors, colonels, members of the armed forces, CIA, the Green Berets, OSS, they were all there. They did all the covert operations. They believed it was the proper thing to do, what they were doing at the time. Now they don't believe that way any longer. Why? Because they realized that what they were doing didn't amount to anything and what they were doing, they realized was illegal. That's what we're talking about today. A lot of illegalities have been occurring and we're trying to change it. That's why we are saying, WAKE UP, AMERICA! Tell your congressmen, tell your senators and anybody else...and tell the media where you are, that you're listening to us, anywhere in the world. Get your media involved with this. It's important because it's your country as well as mine and everybody else's here.

Now the next member on the VIP panel today is a man who believes in this country a great deal. He served in the armed forces. He believed whatever they told to do was right until ten years after being out of the service. Something bothered him...it may have been information he knew existed. Then one day when he was riding his motorcycle and just relaxing, enjoying life, an automobile came up and hit him barnside, shoved him over a cliff. The man bled profusely when two men ran down the hill. One man said to the other, "Is he dead?"..."No, but he will be."... "OK, let's go." He doesn't know who did that but he does have suspicions. Because of that, this man lost his leg. So he's pretty well fed up with the way things are. He wants to change and he is ready and willing to put his life on the line. I'm talking about a great American, a super patriot...Bill Cooper! (ovation)

BILL COOPER:

Thank you, ladies and gentlemen. I fought in Vietnam. I was one of the few men in the United States Navy to serve as an enlisted man. I had the distinction of being a combat vessel captain during the war. I learned something from that experience. You see, out in the middle of a river when things got heavy, and they did on almost a daily basis, you couldn't dig a hole in the deck and hide in it. There wasn't any tree you could scramble behind and you couldn't run away because if you did, they mined the river. I learned something extremely important. There is no position that can be defended, ever. We have to stop defending our position. The only way to win a battle is to attack the enemy's weakest spot and be successful. If you should not be successful, don't give up. Go back and attack and attack and attack, until he's laying bleeding on the ground and cannot ever get up again. Now I do not mean with the force of arms. I mean we have weapons that we can use and we have vocabulary we can use and we must begin to use it. President Kennedy was shot by William Greer, a Secret Service agent. We were all fooled into believing it was someone else that they used for a patsy. They've been doing this to us for years and we have abdicated our role as responsible citizens of this country by allowing it to happen and by allowing them in Washington to do what they want to do for them, and not what they are supposed to be doing as employees for us. That must stop now! We cannot allow any compromises on the Constitution at all. We must make Congress accountable for what is happening and if they refuse to be accountable we have to kick every single one of them out of Congress and put someone in who will be accountable, who will be responsible and who will work for us. (ovation) In parting, I would like to thank every one of you for your really deep down desire to do something or you wouldn't be here. I would like to say, thank you, I love you, and I hope that as I and Richard and Bo and everyone else marches into battle with these issues, that you, in your own way, will be with us. Thank you, ladies and gentlemen. (ovation)

BILLY GOODMAN:

Before you leave I would like to say this. This man is well versed in all of the topics we talked of today. A man who listens to the "Billy Goodman Happening" every night. A man who believes in every single person on the VIP panel. A man who came all the way from San Francisco to be with you because he loves each and every one of you. I mean this. He's told me this, he loves each and every one of you. His name, Roger Nelson.

ROGER NELSON:

Ladies and gentlemen, I really don't have much to say. I think it's all been said but everything we heard from a very important group. I am not an important person. I am just like you, I'm in the audience. I am a very informed person. You've heard what they've said to do. What you have to do is write. Write to your friends, make new friends, call your new friends, write Congress, get Richard Murray's letter, begin a plan of action. Then the next day, get up and do the same thing again. You've got to do it, you can't let up. I've been doing it seventeen years and this is just the beginning. Remember, for all of us, it's just a beginning. Today is the first day of the rest of your life. Keep on it and do it. (ovation)

THE END

(S.F. CALL BULLETIN 4/12/57)  
How Federal Reserve System  
Began. (by: Westbrook Pegler)

The mysterious congress of  
American and European wise-  
guys at St. Simon Island,  
Burnswick, GA., on february  
15, 16 and 17 recalls irresist-  
ibly the secret, fateful delib-  
erations of a similar and smaller but equally presumptuous group  
of self-acknowledged super-intellects on nearby Jeckyll Island  
off the Georgia coast in the spring of 1908.

Lee Samuels: Producer of the  
"Happening". I wish to give  
a special thanks to Lee for  
the wonderful work he did in  
putting it all together.  
THANK YOU!

This meeting was called by Senator Nelson W Aldrich, of  
Rhode Island, whose family is now intertwined with the Rockefeller  
clan. It resulted in the adoption of the Federal Reserve System,  
whether for the better or worse no man can say with finality.

The Similarity of the secret meeting of 49 years ago and the  
recent whispering sessions is irresistible. The late B.C. Forbes,  
editor of Forbes magazine and for many years the biographer of  
giants of American finance and industry, wrote a disturbing  
account of the Jeckyll Island conference which was published in a  
collection entitled "Men Who Are Making America" in  
1917. (cont. page 50)

### FUTURE LIFE PROGRESSION HYPNOTHERAPY

Dr. Bruce Goldberg, D.D.S., M.S.

Dr. Bruce Goldberg has conducted over 28,000 past life regressions during the past fifteen years and many hundreds of future life progressions over the last dozen years.

He practices past life regressions and future life progressions hypnotherapy in Reseda. Dr. Bruce Goldberg is a recognized authority on hypnosis with special interest and experiences in regression and progression. He is the author of Past Lives/Future Lives (Ballantine, 1988) which is the only book ever written on progression therapy. Dr. Goldberg has conducted live past life regressions and future life progressions on such shows as Donohue, Oprah, Regis and Kathie Lee, and CNN.

You may contact Bruce Goldberg by calling (818) 881-8722 or by writing 19604 Victory Blvd., Reseda, CA 91335

# PULL IN FAR AWAY STATIONS EASILY

## No Matter Where You Live--All Rural Areas--Mountains--Desert

Enjoy the SUPERADIO listening experience ... by General Electric.

### A Truly Classic Radio

- ★ Long-Range Reception (Sensitivity) ... especially welcome in rural areas, back woods, or to listen to stations in other cities.
- ★ Great Station Separation (Selectivity) ... for crowded station areas or hard-to-receive weak stations adjacent to strong stations.
- ★ Listening Enjoyment ... for hi-fi reproduction of Bach to Rock.

#### Plus features

- Tuned RF on FM & AM • Ceramic IF filter plus 3 IF tuned circuits on FM • Switchable Automatic Frequency Control (AFC) • Bass, treble and loudness controls • Precision vernier tuning • 700mw RMS audio output • 6 "D" cell operation (batteries not included) • Two-way Power with automatic switching from AC house current to batteries • Separate power On-Off switch • Jack for optional earphone • GE AM/FM Integrated Circuit

# Nishika

## The Revolutionary New 35mm 3-D Camera

**3-D PHOTOS YOU TAKE WITH  
STANDARD 35mm COLOR PRINT FILM  
AND ENJOY WITHOUT  
SPECIAL GLASSES OR VIEWERS.**

**If It's Your First Time to See  
a Nishika 3-D Photo,  
Prepare for a Surprise.**

uses standard 35mm color print film, the same film you find in drug stores and supermarkets everywhere. Just set the lighting selector, compose your picture and shoot. With Nishika's patented Quadra Lens system, no focusing is required. If the natural light is inadequate, the built-in light meter will display a red dot in the viewfinder, telling you that a flash should be used. That's all there is to it!

### ● Nishika's Unconditional 1-Year Warranty

The N8000 is so reliable, so dependable that it comes with an almost unprecedented **1-year unconditional warranty on all parts and labor**. A 2- or 4-year unconditional warranty extension is available for a small charge.

### ● Quality 3-D Prints within 3 Business Days 99¢ Each

### ● Individual Attention to Every 3-D Photo

*The Perfect Gift*

**It's new!** Nishika 3-D is a revolutionary breakthrough in photographic technology.

**It's unique!** With over 100 patents worldwide, Nishika is the only company in the world producing a 3-D camera system that does not require special glasses or viewers.

**It's right for everyone!** For the beginning photographer, the N8000 is one of the easiest cameras to use, while for the seasoned enthusiast, it opens up a whole new world of creative possibilities.

**It's affordable!** The N8000 is priced far lower than many ordinary 2-D 35mm cameras.

**It's a gift that will be enjoyed time and time again!** The N8000 will be appreciated for birthday parties, family gatherings, trips and other special occasions for years to come.

The exciting new N8000 3-D camera takes pictures that "come alive" in your hands! This year don't settle for less than the perfect gift. This year give the Nishika N8000.

## Nishika... A New Dimension in Photography

### ● Microlens Printing: The Brain of the System

### ● 4 Lenses = 3 Dimensions

Nishika N8000 3D Camera (Item # 8000) \$199.95. Nishika Film Club Package: N8000 Camera, Twin Light 3000 Flash, Camera Case and at no additional cost, a Nishika 12 Month Film Club Certificate (Value \$40.00...12 rolls of free film). (Item #1000)\$269.85. NISHIKA CAMERA & COMPLETE ACCESSORY PACKAGE: N8000 camera, Twin Light 3000 Flash, Camera Case, Camera Bag, Camera Strap, Tripod, Vincent Price Video, and at no additional cost, a Nishika Lens Cleaning Kit and Delux 18 Month Film Club Certificate (Value \$60.00...18 rolls of free film). (Item #1010)\$401.65. Send Check or Money Order to: E. Gurrola, 80-580 Calhoun St, Coachella CA 92236.

Few Americans of this time have heard of the weird meeting. Through the courtesy of Mr. Forbes son, Bruce, who still operates the Forbes financial publishing interest, I am able to present the gist and some graphic text of the elder Forbes' account, which still was news to the American people nine years later. Mr. Forbes account began thus:

"Picture a party of the nation's greatest bankers stealing out of New York on a private car, hieing hundreds of miles south to an island deserted by all but a few servants, and living there a full week under such rigid secrecy that the name of not one of them was once mentioned lest the servitors learn their identity and disclose to the world this historic episode in American finance. I am here giving the world the real story of how the famous Aldrich Currency Report, the foundation of our new currency system, was written. Paul M Warburg is popularly supposed to have been the author and writer of the Aldrich measures. He wasn't."

#### SECRET BID

Aldrich issued a "confidential invitation to Henry P. Davidson, of J.P. Morgan and Company; Frank A. Vanderlip, president of National City Bank; Paul M. Warburg, then of Kuhn Loeb and Company; and A. Piatt Andrew, assistant secretary of the treasury, to accompany him on an extremely important-and secret-trip."

#### ASKED MONEY PLAN

Aldrich told them all that he intended to keep them on Jeckyll, isolated from the world, until they had evolved "a scientific currency system for the United States," embodying all that was best in Europe.

They all voted for a central bank as the ideal cornerstone. The authors of the epochal Aldrich report disappeared from Jeckyll Island and slipped into New York undetected, When Congress assembled, they joined in writing the message that accompanied the report to the Senate."

The recent St. Simon Island conference made no "report." The public knows substantially nothing about the meeting nor even who selected the company to attend or on what qualifications.

The Americans participated included some only slightly to the right of Earl Browder in certain political matters.

# GAIL BREWER-GIORGIO

THIS IS THE  
STORY THAT IS

SWEEPING  
THE WORLD!

THIS IS THE  
INCREDIBLE

ELVIS  
TAPE!

THE ELVIS TAPE

60

MINUTES

GAIL BREWER-GIORGIO

This is the woman who broke the most shocking story of our time. You've seen her on Oprah Winfrey, Larry King, David Letterman, USA Today, NBC, ABC, and in virtually every newspaper in America.

Now, *HEAR* the incredible Elvis phone call. Now, *READ* the evidence. And judge for yourself.

---

Why has no one ever come forward to claim on Elvis Presley's life insurance?

---

---

Why was the body listed on the 'original' death certificate as weighing 170 lbs, when Elvis weighed over 250 pounds when he 'died'?

---

IS IT POSSIBLE THAT  
ELVIS IS STILL ALIVE?  
THIS BOOK AND TAPE  
MAY WELL BE THE  
STORY OF OUR  
LIFETIME.

\$5.95 + tax + \$1.50

## MONTHLY TRIVIA QUESTION

(Every month we will bring to you a trivia question just for the fun of it. The answers will appear in the following issues along with another trivia question)

Who did Jim Garrison prosecute in New Orleans in 1967 for the murder of JFK?

(Submitted by Roger Nelson)

## ROMANS REPORT SEEING UFOs (The Tribune 12/14/78)

ROME (UPI) - Dozens of Romans reported sighting unidentified flying objects before dawn today and police confirmed seeing "a very long and very bright emerald green trail descending vertically from the sky."

The reported sightings came hours after the satirical Magazine, "Il Male", (Evil) put out a fake edition of the newspaper Corriere della Sera reporting a Martian landing in Mexico. The fake caused more smiles than alarm in skeptical Italy.

Numerous UFO sightings have been reported in Italy in recent months, including at least three in the Rome area. Some of the unexplained phenomena were reported by police and airline pilots.

## CLASSIFIED ADS

### BOOKS AND TAPES

SCAVENGERS FROM SPACE, PLANET IN TROUBLE, ORGONE ENERGY, ANIMAL MAGNETISM - Incredible, crucial books by UFO and Life Energy Pioneer Jerome Eden. For FREE book list write: The Eden Press, Box 399, Careywood, Idaho 83809.

*Deliver an Alpine Air Purifier and let me try it.*

**ALPINE AIR PURIFICATION SYSTEM . . .**

. . . A unique machine that completely purifies and revitalizes indoor air by oxidation ionization!

**What makes country fresh air?** Ions are electrically charged particles, either positive or negative, generated by the natural radiations from the earth and sun, and by water-spray and lightning. A negative ion is formed when an electron attaches itself to an oxygen molecule. It is the negative ions which revitalize and freshen the air.

**Why do we need ionizers?** Ions are short-lived and thus need constant replenishing. In man's artificial environment, the ion balance is dramatically upset. Central heating and air conditioning systems cause negative ions to disappear from our homes/offices, with little chance of being re-ionized.

**Oxidation by Activated Oxygen (ozone)** . . . This model produces activated oxygen which will actually link to particles in the air and will change to a harmless compound killing and destroying pollen, dust, mold, mildew, bacteria, etc.

**SPECIAL OFFER:** All-American Air offers the Model 150 (1,500 sq. ft. coverage) unit at \$395.00, freight-free,
