104TH CONGRESS  
2d Session

**H. R. 3308**

To amend title 10, United States Code, to limit the placement of United States forces under United Nations operational or tactical control, and for other purposes.

(2) If the President certifies to Congress that an emergency exists that precludes the President from meeting the requirements of subsection (d) 15 days before placing an element of the armed forces under United Nations operational or tactical control, the President may place such forces under such operational or tactical control and meet the requirements of subsection (d) in a timely manner, but in no event later than 48 hours after such operational or tactical control becomes effective.

(c) ADDITIONAL EXCEPTIONS.—(1) Subsection (a) shall not apply in the case of a proposed placement of any element of the armed forces under United Nations operational or tactical control if Congress specifically authorizes by law that particular placement of United States forces under United Nations operational or tactical control.

#7277 is the policy document for Public Law 87-297. This law was passed in 1961. It commits our armed forces to the permanent command and control of the communist-dominated United Nations. It is also the parent document of P.L 101-216. The United Nations needs only for the president and the Congress to sign U. S. Armed forces over to them. H. R. 3308 gives them that capability.

ings of the Nuclear Experts Commission; the resulting excess of fissionable material shall be transferred to peaceful purposes.

D. To Further Reduce Strategic Nuclear Weapons Delivery Vehicles:  
Further reductions in the stocks of strategic nuclear weapons delivery vehicles and agreed types of weapons designed to counter such vehicles shall be carried out in accordance with the procedure outlined in Stage I.

E. To Keep the Peace:  
During Stage II, states shall develop further the peace-keeping processes of the United Nations, to the end that the United Nations can effectively in Stage III deter or suppress any threat or use of force in violation of the purposes and principles of the United Nations:

(a) States shall agree upon strengthening the structure, authority, and operation of the United Nations so as to assure that the United Nations will be able effectively to protect states against threats to or breaches of the peace.  
(b) The U.N. Peace Force shall be established and progressively strengthened.  
(c) States shall also agree upon further improvements and developments in rules of international conduct and in processes for peaceful settlement of disputes and differences.

**STAGE III**

By the time Stage II has been completed, the confidence produced through a verified disarmament program, the acceptance of rules of peaceful international behavior, and the development of strengthened international peace-keeping processes within the framework of the U.N. should have reached a point where the states of the world can move forward to Stage III. In Stage III progressive controlled disarmament and continuously developing principles and procedures of international law would proceed to

a point where no state would have the military power to challenge the progressively strengthened U.N. Peace Force and all international disputes would be settled according to the agreed principles of international conduct.

The progressive steps to be taken during the final phase of the disarmament program would be directed toward the attainment of a world in which:

(a) States would retain only those forces, non-nuclear armaments, and establishments required for the purpose of maintaining internal order; they would also support and provide agreed manpower for a U.N. Peace Force.  
(b) The U.N. Peace Force, equipped with agreed types and quantities of armaments, would be fully functioning.  
(c) The manufacture of armaments would be prohibited except for the agreed quantities to be used by the U.N.
